

**“Lose up to 1 POUND
of FAT per day!!!”**

**(SAFE, Effective
NATURAL
WEIGHT LOSS!)**

*Weight
Loss
program*
**EASY AS
1... 2... 3...**

Are you serious about losing weight?

You can virtually melt away your FAT without strenuous dieting or excessive exercising. This is the best weight loss secret to come along in years - when you're talking about FAST EFFECTIVE weight loss.

HOLD ON!!!

You might be afraid the “solution” will be worse than the problem, but let me assure you, it's not! When you schedule an appointment you're going to receive something that NOT only helps you lose weight, but also helps your appearance, your face, your complexion and even your body structure.

Listen, I am a regular practicing doctor in Port Hueneme, and I love helping people, just like you, lose that stubborn weight, without rigorous dieting, and then how to keep it off - permanently.

Safe & Easy!

My exclusive weight loss management system is completely SAFE and has been proven to work. It is based on scientific principles that cause almost immediate changes and is strictly administered along common sense protocols.

Here's what most people don't understand. When you're heavy, you lose your strength, vitality, and you can become feeble. And on top of that you can age prematurely because your “fat” cells clog your body's vital organs. That will change after you start utilizing this system. You may be like some people who have lost their figure due to this FAT clogging weight gain.

The problem is, most overweight people are unable to find a simple, easy to follow system to reduce their fat and then keep it off. Even their coordination, daily movement and attractiveness are destroyed with this weight gain. That will all change when you start using this system.

Here is what I can do for you.

CALL the office NOW! You won't have to make any radical changes in your lifestyle with this program, ... have surgery, or take any harmful drugs.

Your treatments are private and you will start to lose up to 1 pound per day, depending on your size, age, condition of your body and follow through.

You will consult with me personally for follow up and questions. Once you've reached your desired weight, you'll have your shape back, have more energy, and you'll have your self-esteem back.

Doesn't get any better than that!!

“SIMPLE”

LOOK “Get Rid Of YOUR FAT Now!”

*“I have lost 25 lbs.! Not only do I feel that I have much more energy now, but I'm starting to do some of the things I haven't done in years.” ~ Gale C. **

*** Reserve your spot today.** Call the office now to have access to this amazing weight loss technology.

* Results may vary from individual to individual.

Rapid Release
Technology
Therapy

Do you suffer from Scar Tissue Adhesions?

Scar tissue forms in the body as a temporary patching mechanism for wounds caused by surgery, trauma or repetitive stress. Scar tissue connecting tissue not normally connected are called adhesions. Adhesions can spread, entrapping nerves causing pain or numbness and limiting range of motion. Undiagnosed pain and restricted mobility are likely to be caused by these scar tissue adhesions.

What can you do about it? Scar Tissue Therapy™

Rapid Release Technology targets painful adhesions using resonance. RRT has determined the optimum frequency for maximum effectiveness. Our frequency also triggers the Tonic Vibration Reflex or TVR. This frequency is well known to instantly relax muscle guarding, cramps and spasms. RRT is unique in the above properties as it operates many times faster than other therapeutic devices, and it feels great too.

Scar tissue therapy™ is focused on relief of soft tissue problems caused by adhesions such as:

- Carpal Tunnel Syndrome
- Tendons
- Muscle Spasms
- Trapped Nerves
- Range of Motion
- Contractures, Neuromas
- Back, Shoulder and Ankle Pain
- Headaches, TMJ
- Knee Problems
- Tennis Elbow

*****Would your patients appreciate you more and refer their friends if you
could deliver these results on a consistent basis?**

Scientific Evidence and Case Studies

As an alternative to traditional treatment methods including surgery, pressure wave technology, improves the regenerative potential, rather than further damaging an area that has degenerated because of poor blood flow, tissue injury, overuse or weakness. Pressure wave worldwide better known as shockwave is the non surgical treatment of soft tissue, bone, heel and joint pain.
